The very best part of Rian Fabrication Services is that, when dealing with us, you are not limited to a specific shape or profile. All of our Seamless Panel Liners (we use this term for anything with a rabbet) and FiberMats (for those without a rabbet) are available in any border width. Even the edge details that we included on our profile sheets are just a sampling of what we can produce. Everything we make is custom and we love special projects. Uneven borders, bottom weighting, deeper rabbets, Rounds, Ovals and just about anything you can imagine. Send us a sketch and let us help you create that one of a kind product to enhance your art.

Custom Shaped Hardwood Veneer and Ultralight MDF Frames

Pricing per Outside United Inch - 24 United Inch Minimum

Unlike solid wood frames, we are not limited to a particular size, shape or depth. We start with our versatile Ultralight MDF and create one of a kind frames. We offer them raw or primed, for you to apply a finish coat, or laminated with any one of our beautiful hardwood veneers. We offer 6 stock species (see below) but we will gladly apply a stain of your choice using the Minwax Stain Chart for reference. This chart is available in most hardware stores. Our finished product includes two layers of semi-gloss urethane.

Custom Fabrication

In addition to the many products and services shown throughout this price list, one of our primary sources of business is custom wood fabrication for the decorating and hospitality industries. Our specialty is one of a kind projects that are usually used as wall décor or free standing sculptures. As a frame company, you have probably worked with decorators or designers in the past so our capabilities may open a whole new market for you. Typically, when approached by a designer looking to have a special project created, they send us a concept image or drawing. We respond with an estimated cost and if it is within their budget, we proceed with CAD drawings and material specifications which are then submitted for approval before moving forward. For a full brochure of our projects or for further information please contact us.
